Mr. Dale Jensen
Manager Product Development
Harris Research, Inc.
1530 N. 1000 West
Logan, UT 84321

Dear Dale:

This is to confirm DuPont's approval of ChemDry® Wool Protectant and ChemDry® Repel Protectant products. ChemDry® Wool Protectant provides excellent repellency and soil resistance to wool rugs and carpets. ChemDry® Repel Protectant also provides outstanding oil and water repellency along with great soil resistance to carpets of all fiber types. Please note that both of these products are aqueous based and should not be used on rugs or carpets that are not color fast or shrink-resistant.

Sincerely Yours

Rick L. Raessler
Carpet Aftercare Manager
